Use the tiles numbered 1 through 3 to create the greatest fraction. The least fraction.

$$\frac{\boxed{}}{\boxed{}\ \boxed{}}$$
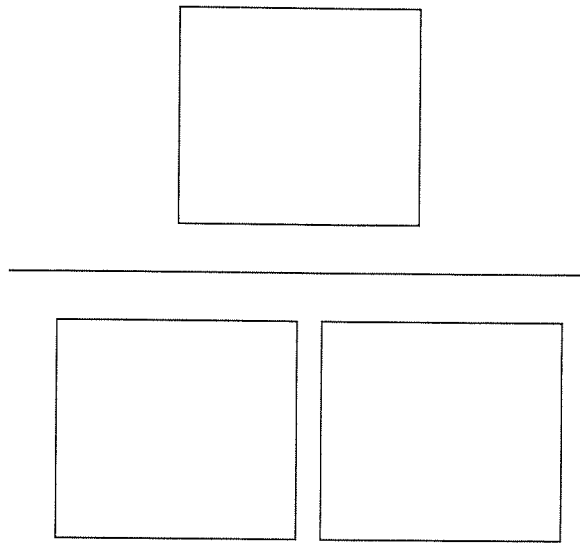

Use the tiles 1, 2, 3, and 4 and see how close you can get to a sum of 1.

$$\frac{\boxed{}}{\boxed{}} + \frac{\boxed{}}{\boxed{}}$$

Use the tiles 1 through 6 to see how close you can get to a sum of 1.

$$\frac{\boxed{}}{\boxed{}} + \frac{\boxed{}}{\boxed{}} + \frac{\boxed{}}{\boxed{}}$$
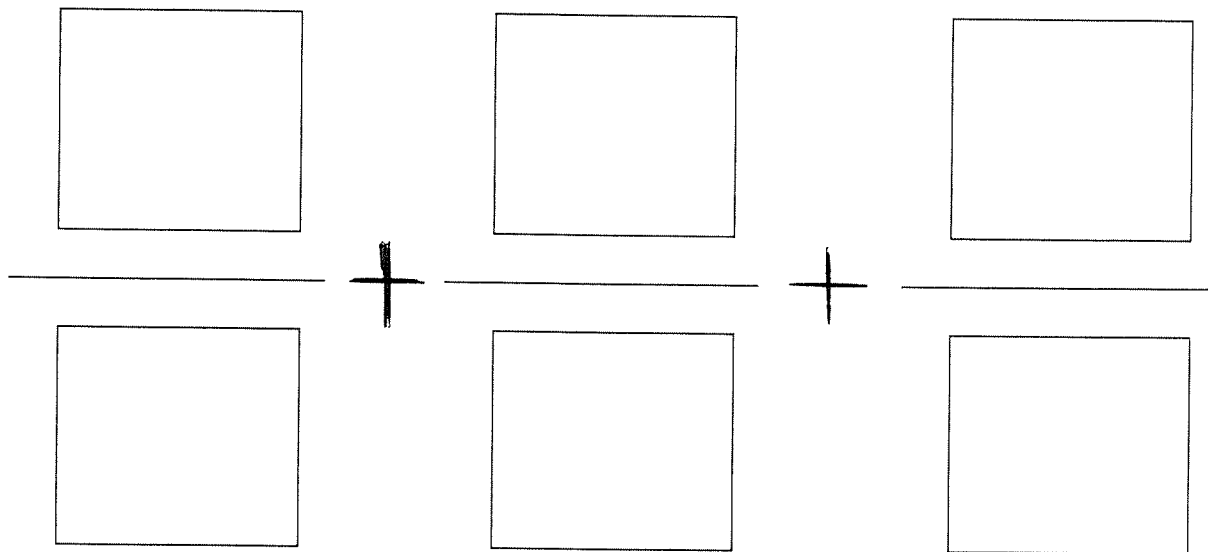

Use the tiles 1 through 6 to see how close you can get to a sum of .5.
(note: the numbers in the denominator will make a 2 digit number, not a product)

$$\frac{\boxed{}}{\boxed{}\ \boxed{}} + \frac{\boxed{}}{\boxed{}\ \boxed{}}$$
