Fractiono. Three in a row!
A game of mental math for two people

Rules:
Choose one number from the circle and one number from the square. Perform the operation shown. Find that number on the grid and cover it with a marker. Alternate turns. The first player to get three in a row is the winner.

Play a game on each of the boards, then use the blank board to create your own game.

Games can be created to give practice with addition, subtraction, multiplication or division. Games can also give practice with whole numbers, decimals, fractions, or percents.

Diagram of a circle and a square divided into fractions:

Circle:
- 1/2
- 1/3
- 2/3
- 3/4

Square:
- 7/8
- 3/4
- 1/4
- 3/5
